Many things operate to make this big clean-up of staple stock a necessity---more this year than in any of the twenty previous years in which we have striven to earn your confidence.

Stock-taking in a big, busy store brings to light many surprises in the way of overstocks, broken assortments, goods that may have suffered a little rom handling or window display and merchandise that must not be carried over into another season.

These are the lines that supply the money-savers for our January sale.

Some Features of 1908.

The year 1908 has passed into history. It will ever be ness interest in the community. memorable, however, in the history of the United States as the year in which its great fleet of powerful battleships achieved the unprecedented feat of circumnavigating the earth on a strictly peaceful mission and bearing with it greetings of good will to all of the nations of the world. That achievement which is now practically accomplished will constitute a brilliant page in the annals of the American navy, not only for the reason that it was the first time such a voyage was attempted by any naval power, ancient or modern, but, also, because of its unqualified success and total freedom from misadventure of any kind to any of the ships in the armada.

And while this demonstration of naval strength and the efficiency of cur warships, which the "knockers" have been persistently but foolishly decrying, has been in progress peace has prevailed among the nations of the earth. No story of war will mar the year's pages. But, while the record will contain accounts of friction between nations which brought them to the verge of hostility, it will, also, render an account of the admirable workings of the machinery internationally employed to avert war and its enormous waste of human life and resources and its attendant horrors.

In the field of scientific discovery the year just closed will b notable as the one in which man accomplished the long-sought feat of the conquest of the air. Aerial navigation during the past year ceased to be a more theory, passed out of the realm of visionary dreamers, and became an accomplished fact. The achievements of the Wright brothers with their aeroplanes and those of Zeppelin with his great airship are incrasibly incorporated in the record of

The closing days of the year have unfortunately been marred by one of the greatest tragedies the world has ever known, so far as shown in the records of history, in the great cataclysm which visited the Italian peninsula, and in the twinkling of an eye, as it were, reduced large and populous and wealthy cities into ruins, wiped out of existence from 200,000 to 300,000 human lives and converted one of the most fertile provinces of that fair country into a desert waste. It is the darkest page in the record of the year.

The Suffragette Movement.

During the coming session of the State Legislature an attempt to extend the suffrage to women promises to cut a figure. The question intruded at the party nominating conventions last summer and the campa gu which followed. And since the elections the leading suffragettes have actively canvassed the members-elect of both houses to win their support.

The same question is disturbing the equanimity of the British parliament. Some stirring scenes have been witnessed there during the campaign. The home of the British premier has been mobbed; the floor and bar of the House of Commons have been invaded and its proceedings interrupted by disorderly demonstrations at the entrances to the Houses of Parliament, and in the women's gallery in the chamber of the Commons by the bolder class of suffragettes. Many of the more persistent and aggressive and boisterous of the suffragettes have been arrested, tried, convicted and jailed. Of course, they have posed as martyrs to a principle and made the most of that fact for propagandist purposes. Whether these late violent demonstrations have aided the cause of the British suffragetics remains to be seen. One thing is certain, they have made little, if any impression on the Cabinet ministers, who realize that the great mass of the women of the United Kingdom are not interested in the movement and have no ambition to concern themselves with politics. even though the leaders of the suffragertes have raised the battle cry of "no taxation without representation."

Manifestly the same indifference to the exercise of the suffrage by women is shared by the great majority of the sex in this country, even in those States where political equality between the sexes has been incorporated in their organic laws. In all probability if a canvass were made of the women of California qualified by age to vote as to their choice in the matter of the suffrage, the great majority of them would frankly disavow any interest in the subject. But it is quite plain at this time that the California suffragettes mean to press the question home to the Legislature during the the Kalser. If there isn' a fight or a mean to press the question name to the regional foot race then William Housinglern may session which will convene next week, and it will be up to its members to decide whether or not a constitutional woman's rights amendment shall be submitted to the electorate at the next general

Warships on Humane Mission.

. The change in the original program of the all-round-the-world cruise of the Atlantic battleship fleet as a demonstration of naval capacity and might to the performance of a mission of mercy, to extend aid to the citizens of a foreign nation who have been afflicted suddenly in a manner and to a degree unprecedented in the recorded history of mankind, will add luster to its unparalleled achievement. mstory of mankind, will add fuster to its unparalleled achievement, wages. Everybody has a good word to say for THE TRIBUNE "Annual." That is what we expected, of course, but it is all the same pleasant to hear the words of praise with which it is being greeted. We want, however, the outside world to learn more about the facts which are recorded in the "Annual" than it has hitherto known. Everyone of he facts presented therein have a direct bearing upon the welfare and continued prosperity of every citizen in every community and in every section of the county.

HE New Year, 1909, Old Father Time's latest and most promising gift to an appreciative humanity, arrived on time last night at solemn hour of midnight. At precisely twelve o'clock 300,000 celebrating and jubilant citizens on this side of the bay gave vent to their joy in a bewildering number of ways. Some proclaimed the new born year by the tingling of bells, others gave vent to excess enthusiasm by the blowing of whistle and the tooting of horns. The vast majority extended the right hand of fellowship to each other in the way of congratulation. Dignified nien, who on all other occasions are paragons of sedate conduct, forgot their dignity and united with the bulk of humanity paradir g the streets to the accompaniment of all sorts of fun and frivolity. ## IIM JEFFRIES TURNS DOWN **BIG OFFER OF AUSTRALIAN**

Retired Champion Has Again Refused to Fight Johnson and Will Not Accept Big Winner's or Loser's End.

By EDDIE SMITH.

EFFRIES refuses '50,000 to fight Jack Johnson. This notice is displayed in the sporting columns of almost every newspaper in this country today, and once again the people are wondering why it is that the big fellow turns now such glittering terms and sticks steadfast in his retirement. Jack Wree, the Melbourne bookmaker and fight promoter, who enjoys the reputation of being the biggest gambler in the Antipodes, and also the man who sent us the Australian quiner. Bill Squires, has made Jeff the above offer, and the big fellow, fortlited in his own town and in his own liquor emporium, has said that Wren has no right to imagine that he would auction himself to the high-set bidder.

This offer of Wre is is no greater than that offered Jeffries some years ago, when he was in his prime, by Jimmy Coffroth, and he would not take a chance at the colored champion then. Coffroth never made any such bid as the \$50,000 win, lose or draw, but he made such a liberal offer in the percentage of the receipts that the figures were to get that it is almost a sure thing that Jeffries would have pulled down as much money as the Australian bookmaker and quince hunter has promised him.

Jeffries Out For Good

There is nothing to all this talk of Jeffries ever coming back into the game, for no amoun of coaking or no amount of money will ever get the big one to change his determination to never light again. Wren and his money will have no effect on this fellow whose love for money was always so great that Delaney had to almost force him to every bit he ever made.

"Jeffries cares no more for money than a log does for a clean tablecloth," was a favorite expression of a very close friend in the days when he could fight, and while of course fills is an exaggration, it does not miss it such, for the writer has had ample opportunity to study the traits of the lusky ex-champion, and his regard for money will never tempt him back to the game of his

the writer has had ample opportunity to study the traits of the lusky ex-champion, and his regard for money will never tempt him back to the game of his and get away. Back two years I was as much after Jeffeles to again enter the ring as any one, and I would have been mighty glad to have seen him matched with Mr. Jack Johnson, but now I feel that it is wrong to ask the retired champion to again don the gloves.

No matter what may one tolls you, Jeffeles is not in condition to think of again fighting, and there is little chance of his ever getting into the proper shape again. It has now been four years and a half since Jeffeles has been in a contest, and during that time it would be a safe bet to wager that he has never engaged in a practice boxing bout. He has been running this benzing emporium for the past few years and of course has drank more or less and taken on fat that he would never be able to lose.

Jeffeles can't fight any more, and if he should take a crack at Johnson he would in all probability get licked, and after retiring a champion and remaining in seclusion for this long it would be a shame to have the big fellow come out and be beaten in Australia. No real good friend of the retired champion will coax him to fight ap in, and now that he has stuck to the quiet life this long, he should be let alone.

Mrs. Murphy says that if there was any coercion it was done by her. She told Patrick tolly that his daughter had committed forgery and that if the wrong done was not immediately righted the would immediately inform the district attorney and have Miss Dely accepted. Miss Dely wept, says Mrs. Murphy, and admitted she had represented herself as her aunt when the deed was executed, and after this Dely voluntarily signed a deed retransferring the half interest to Miss Feeny.

"Several year ago I was attacked by a severe (ase of gripp), which left me with a hacking cough soreness in my chest, and bronchitis I took nearly every kind of cough syrup sold on the market besides medicine given me by physicians

I received no perm ment relief until my druggist asled ne to try Vinol, and after taking three bottles I was enditely cured I believe Vinol to be the greatest

The reason Vinol cures chronic coughs colds and pulmonary troubles

is because it contains tonic iron and all the healing and body building elements of cod liver of but no oil Vinol is also unexcelled as a strongth builder for old people, delicate children,

weak and run-down persons, and after sickness. VINOI, is sold in Oakland by The
